

# AttachmentExtractor

save money and Dynamics 365 data storage by moving e-mail attachments and e-mail content

Thanks to AttachmentExtractor there is a simple way to reduce your Dynamics 365 data storage. The tool copies or moves content to either SharePoint or Azure Blob Storage releasing valuable space in your Dynamics 365 data storage. Files are replaced with links inside Dynamics 365 so users will not see a difference when accessing the files!

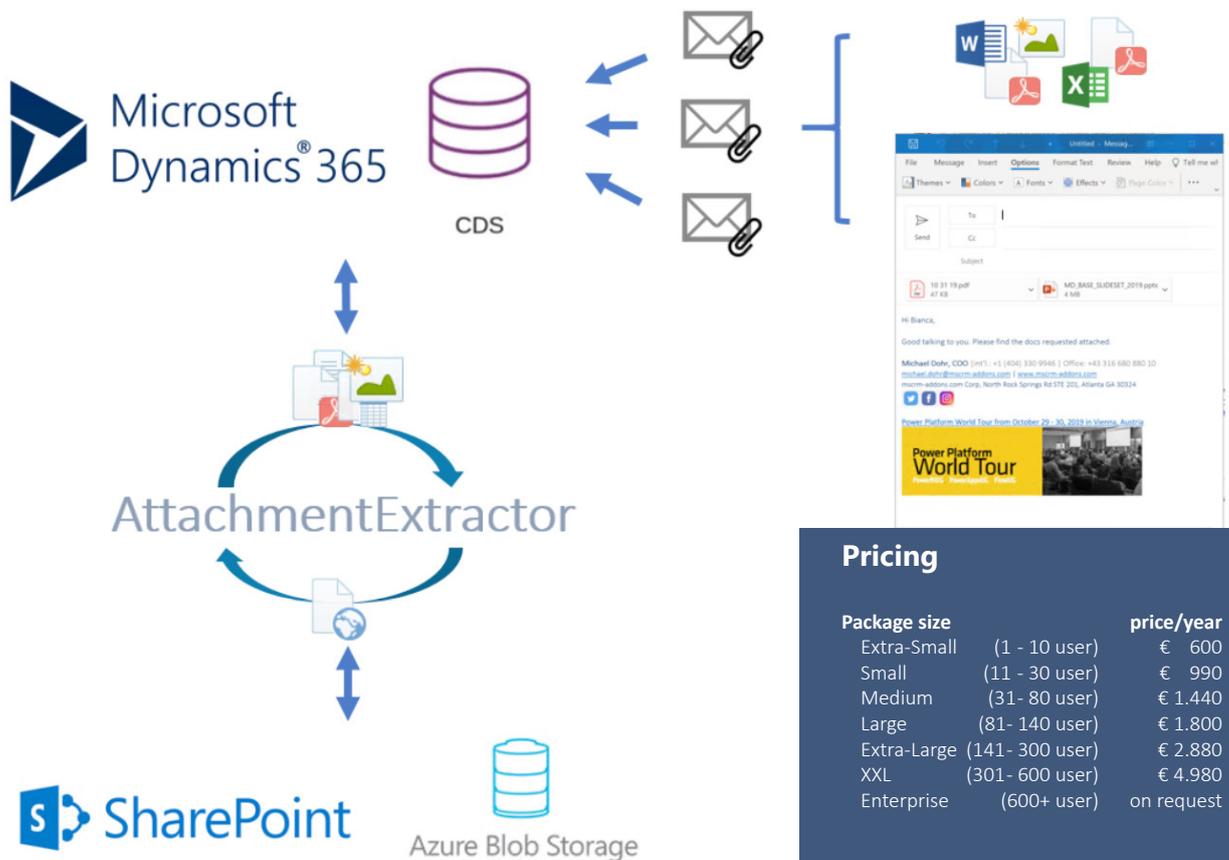

## Your benefits at a glance

- **Save money:** Reduce storage costs by moving documents and e-mail content to an alternative storage
  - Azure Blob Storage
  - SharePoint (Supporting document management settings in Dynamics 365)

- **Transparent:** No difference when accessing extracted content for your users
- **No SharePoint permissions** to access moved content required
- **Speed up migrations and upgrades**

## Custom extraction rules

- Touch **only e-mails related to certain entities (Whitelist) or block entities (Blacklist)**
- **Set up a scheduler to perform tasks** (e.g.: extract weekly, daily...)
- **Archive data** define extraction based on date/time values (older than X years)

## Pricing

| Package size |                 | price/year |
|--------------|-----------------|------------|
| Extra-Small  | (1 - 10 user)   | € 600      |
| Small        | (11 - 30 user)  | € 990      |
| Medium       | (31- 80 user)   | € 1.440    |
| Large        | (81- 140 user)  | € 1.800    |
| Extra-Large  | (141- 300 user) | € 2.880    |
| XXL          | (301- 600 user) | € 4.980    |
| Enterprise   | (600+ user)     | on request |

## Dynamics 365 & PowerApps

# Save data capacity & money

by moving e-mail content to Azure Blob Storage

Example of a Dynamics 365 customer that tracks e-mails:

- Total e-mails: **1 450 000**
- Table size: **78 GB** (ActivityPointerBase)

- Move rich e-mail content to Azure Blob
- Save plain text version in CDS
- Retrieve e-mail upon user request (user sees original e-mail in Dynamics 365!)

- File stored in Azure Blob 0.00081 USD/GB/month \*<sup>3</sup>

## Impact on database capacity

Check your system: <https://admin.powerplatform.microsoft.com/analytics/capacity>

Extraction of 70 000 e-mails at ~850 MB/day | 22 500 e-mails/day
