Document Generation & Processing - Your benefits at a glance:

The 'Dialog': Accessible from the command bar, the dialog enables to generate and process documents in three steps:

1. Select template
2. Define how to process document (see table on page 6)
3. Preview: Review and Edit

The dialog can be customized according to your business requirements supporting:

- **One-Click-Actions:** Preconfigure your document process to just one click and simplify the dialog for your use cases
E.g. send pdf as an e-mail attachment, print and save to SharePoint with one click
- **Workbooks/Document packages:** Define complex documents consisting of several individual elements (e.g. proposals)
- **User-prompts:** Incorporate user-input into generated documents

The screenshot shows the 'DocumentsCorePack Dialog' on the left, which has three main sections: 'Let me decide every step (available for users)', 'send Quote', and 'Proposal'. A red arrow labeled '1 Click' points from the 'send Quote' section to the right. On the right, a preview of a generated document is shown, titled 'Your quote for DocumentsCorePack & AttachmentExtractor'. The document is an email template with fields for 'From' (John Snow), 'To' (Michael Dole), 'Cc' (empty), and 'Bcc' (empty). The body of the email starts with 'Dear Michael,' and 'Thank you for your interest in our products. Regarding your request per e-mail from 9/20/2021, we can offer you the following:'. An attachment is listed as 'QUO-01003-HYCO27msccrm-addonscom.pdf' (205.4KB). Below the preview, a text box states: 'One-Click-Actions: Predefine your document operations like send quote as pdf and print.'

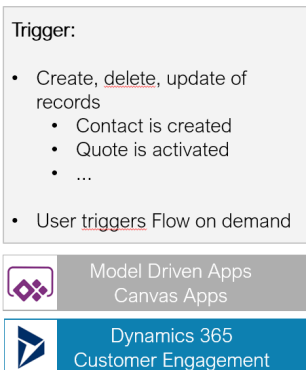

Document Automation - Your benefits at a glance:

- **PowerApps-Connector:** The DocumentsCorePack connector for Power Automate and Canvas Apps allows you to utilize your document capabilities in your custom applications and back ground processes (Flows)
- **Dynamics 365 processes integration:** Automate your document processes via Dynamics 365 workflows or Microsoft Flow
- **Reducing your user's workload and standardizing your internal and external documents**
- **Scheduled reports** (daily, weekly, monthly)

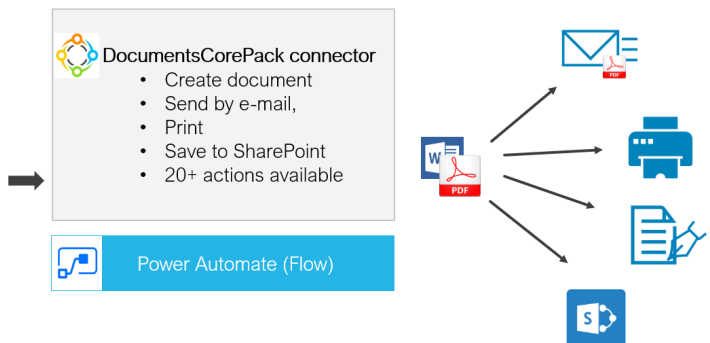

“We at Blanchard are very pleased with the product and would highly recommend mscrm-addons products to anyone looking for a robust yet flexible document merge and delivery solution.

Ed Glover, Blanchard Company, Inc

1. Event occurs in your environment and triggers a Flow

2. Within the Flow, DocumentsCorePack provides a broad variety of actions to automatically create and process documents

Template Design - Your benefits at a glance:

- **Microsoft Word based:** No design/feature limitations
- **Dynamics 365 connector:** Map any fields from Dynamics 365 or DataVerse
 - Unlimited support for relationships
 - All attribute types supported
- **Special features:** Embedding of pictures, sub-documents, e-Signature tags, HTML, QR-codes ...
(See table on page 7)

Dear <<customerid_account_primarycontactid_firstname>>
<<customerid_account_primarycontactid_lastname>>,
Thanks for the interest in our products.
Regarding your request per e-mail from 3/22/2019, we can offer you the following:

QUOTE
No <<quotenumber>>

Type: Quote (quote)
Advanced Template Settings
Standard Additional
Search for a field...

Double click the fields to insert them

- Account
- Adjusted Gross Margin (%)
- Approve Quote
- Approve Quote for Flow
- Bill To Address
- Bill To Address ID
- Bill To City
- Bill To Country
- Bill To Email
- Bill To Fax
- Bill To Phone
- Bill To Postal Code
- Bill To State
- Bill To Zip
- Change

The Template Designer integrates into MS Word allowing users to design templates using Dynamics 365 data.

Fields can be modified and thus, displayed in individual formats and various culture styles.

DocumentsCorePack is available for:

Dynamics 365 Customer Engagement & PowerApps, Online and On Premise CRM 2011 up to Dynamics 365 V9.X

AttachmentExtractor (AE)

Save money and Dynamics 365 data storage by moving e-mail attachments, notes and e-mail content

Get your
FREE TRIAL
on AppSource or on
www.msrm-addons.com!

Your benefits at a glance:

- **Save money:** Reduce storage costs by moving documents to an alternative storage
 - Azure Blob Storage
 - SharePoint (Supporting Dynamics 365 document management settings)
- **Transparent:** No difference when accessing extracted documents for your users
- **No SharePoint permissions** to access moved content required
- **Speed up migrations and upgrades**

Custom extraction rules:

- Touch **only e-mails related to certain entities (Whitelist) or block entities (Blacklist)**
- **Set up a scheduler to perform tasks** (e.g.: extract weekly, daily...)
- **Archive data** define extraction based on date/time values (older than X years)

“AttachmentExtractor has saved us countless hours from dragging and dropping files into folders. And, by storing the files in SharePoint, it keeps monthly CRM costs to a minimum.

Ken Kelly (CEO), Kelly Roofing

AttachmentExtractor is available for:

Dynamics 365 Customer Engagement & PowerApps, Online and On Premise CRM 2011 up to Dynamics 365 V9.X

ActivityTools (AT)

Add some Outlook-feeling to Microsoft Dynamics 365 activities

Get your
FREE TRIAL
on AppSource or on
www.mscrm-addons.com!

Your benefits at a glance:

360° view on all activities related to a record:

- **List view:** Show activities in reverse chronological order
 - **Advanced search and filter capabilities** (content, status, type, date-range)
 - **Preview pane:** Direct preview of activities and attachments
 - **Load “on-demand”** to ensure high performance
-
- **Fully customizable layout and preview pane**
 - **Can be embedded into any entity form or dashboards**
 - **Support for user-views (inbox) and queue-views**

The screenshot shows the Dynamics 365 interface for the 'Coho Winery' account. The 'ActivityTools' pane is open, displaying a list of activities. The list is organized into sections: 'LAST WEEK' and 'TWO WEEKS AGO'. The 'LAST WEEK' section shows three activities from John Snow, all dated 6/14. The 'TWO WEEKS AGO' section shows five activities from John Snow, dated 6/6/2018 and 6/5/2018. The selected activity is 'Thank you for your request' from John Snow, dated 6/13. The preview pane on the right shows the content of this activity, including a thank you message and contact information. A callout box highlights the preview pane content.

ActivityTools provides you with a list of all related activities. Create, search & filter activities from within the menu.

The preview pane shows the content of the selected activity. All details can be opened from this preview pane.

ActivityTools is available for:

Dynamics 365 Customer Engagement & PowerApps, Online and On Premise CRM 2011 up to Dynamics 365 V9.X

Telephone Integration (TI)

Connect your phone system to Dynamics 365

Get your
FREE TRIAL
on AppSource or on
www.msrm-addons.com!

Your benefits at a glance:

Capture and track phone calls:

- **Caller Recognition:** Once a call is recognized, our solution will search the Dynamics 365 system and display information about the caller
- **Screen Pops:** Dynamics 365 records and call activities can be configured to automatically pop-up on incoming and outgoing calls
- **Auto creation of Dynamic 365 records:** Create new records on incoming calls (e.g. phone calls, tasks, cases, opportunities, accounts, contacts or leads)

Simplify dialing:

- **Click2Dial** on phone number or with a click on the 'Call number'-button in the command bar from within the balloon simply by entering the phone number
- **'Dialing from related records'** enables you to call phone numbers from related records (e.g. call directly from an opportunity)

Additional features:

- **Call statistics inside Dynamics 365: Track every call**
This allows you to analyze your calls based on Dynamics 365 dashboards
- **The PowerDialer supports dialing lists**
Dialing lists are created directly from campaign activities or power dialing entities in Dynamics 365
- **Supports Unified Service Desk (USD)**
Instead of opening Dynamics 365 records in your browser, the Dynamics 365 records (contact, account, lead) are opened in the USD Client

Supported phone systems

- Skype for Business
- HTTP API/SIP Client (connect via VoIP thanks to our built-in SIP Client wrapper)
- TAPI driver enabled phone systems like Cisco, Alcatel, Siemens and many more
- RingCentral
- Interactive Intelligence

TI works well with the most popular phone providers in the market.

SmartBar (SB)

Navigate in Microsoft Dynamics 365 like a pro

Get your
FREE TRIAL
on AppSource or on
www.msrm-addons.com!

Your benefits at a glance:

- **Smart navigation** between related Dynamics 365 records (**Simple back & forth navigation**)
- **Configurable Views:** Display critical information like “Open Cases” or “Opportunities over 10K”
- Numbers next to the button **indicate the number of related records per entity** (e.g. the number of quotes, orders, etc. related to the opened record is counted)
- **Color-coding:** Hide buttons or change button color based on defined count ranges
- **Drag & drop functionality** enables users to change the buttons order
- Display SmartBar in **Standard or Metro Style, a vertical/horizontal order and various colors**
- **Create custom buttons** (JavaScript Function, Links, Views, Entity/SiteMap, Scroll to section)
- Fully **customizable look & feel:** Embedded into any entity or dashboard (personal menus)
- **Show/Hide buttons** based on count or field values

NOTES

SmartBar buttons allow count of & quick access to related records.

Customizable color & size give a clear overview on related records.

SmartBar is available for:

Dynamics 365 Customer Engagement & PowerApps, Online and On Premise CRM 2011 up to Dynamics 365 V9.X

PowerSearch (PS)

Finding records in Microsoft Dynamics 365 has never been easier

Get your
FREE TRIAL
on AppSource or on
www.msrm-addons.com!

Your benefits at a glance:

Search capabilities:

- **Simple UI** for complex reusable queries
- **All search operators supported** (as in Advanced Find)
- Support of **AND/OR keywords**
- **User defined default search values**

Working with results:

- **Result preview:** View result details without opening them
- **Customizable grid** with access to results and related records
- **Open results in Dynamic 365 grids to support common tasks** (bulk edit, export to Excel, ...)
- **Execute workflows/actions** against results (single & bulk)

Configuration:

- **Fully customizable search & result fields**
- **Customizable previews and actions**
- **Convert Advanced Find via fetch import**

The screenshot displays the PowerSearch (PS) application interface. At the top, there is a navigation bar with tabs for Accounts, Cases, Opportunities, Contacts, Leads, Opportunity Products, Activities, Email Messages, Articles, and Letters. Below this, a search bar contains the text 'Alpine Ski House (sample)'. To the right of the search bar, there are filters for 'Created On' (set to 'On') and 'Owner' (set to 'Equals Current User').

The main content area is divided into two sections. The left section, titled 'Active Accounts', shows a list of accounts. The first account, 'Alpine Ski House (sample)', is selected and highlighted. The right section, titled 'Alpine Ski House (sample)', displays the details of the selected account. This section is further divided into three sub-sections: 'Account Name', 'Primary Contact', and 'Contacts: Active Contacts Subgrid View'. The 'Account Name' section shows the account name, email, main phone, and primary contact. The 'Primary Contact' section shows the contact name and email. The 'Contacts: Active Contacts Subgrid View' section shows a table of contacts.

At the bottom of the interface, there is a status bar showing '1 - 1 of 1' and 'H 4 Page 1 of 1'.

Define an unlimited number of fields that allow a search in all Dynamics 365 entities.

Get a quick overview of results within our fully customizable preview pane.

PowerSearch is available for:

Dynamics 365 Customer Engagement & PowerApps, Online and On Premise CRM 2011 up to Dynamics 365 V9.X

GroupCalendar (GC)

Schedule & reschedule users, groups and resources via drag & drop

Get your
FREE TRIAL
on AppSource or on
www.mscrm-addons.com!

Your benefits at a glance:

Scheduling feature:

- Define/select/display users, teams, resources and/or resource groups
- Display time-off and working hours of your users
- Color coding of activities manually or via business rules
- Print & Print preview
- Fully customizable content
- Embed our add-on into any entity

Views:

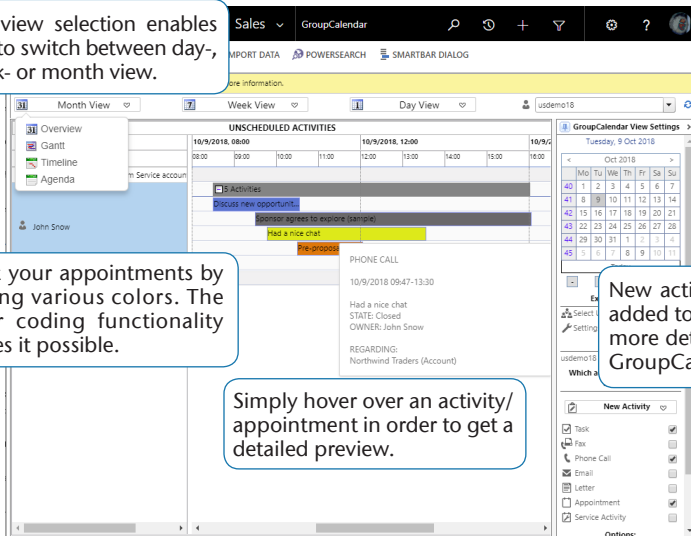

- All views available in day-, week- or month-view
- TopDown-view (like Outlook), List-view, Gantt-view, Timeline-view and Agenda-view

The view selection enables you to switch between day-, week- or month view.

Mark your appointments by adding various colors. The color coding functionality makes it possible.

Simply hover over an activity/appointment in order to get a detailed preview.

New activities can be quickly added to the calendar. Create more detailed ones using the GroupCalendar SideBar.

GroupCalendar is available for:

Dynamics 365 Customer Engagement & PowerApps, Online and On Premise CRM 2011 up to Dynamics 365 V9.X

Partner Program

Working with partners is the key to success!

Your benefits at a glance:

Our resellers form a major part of our distribution network. They integrate our Add-ons in their one-stop-shop solutions for clients all over the world and therefore enable easy access to our products on local markets. We appreciate the mutual partnership and our reseller's commitment.

- **Partner Levels:**
Different partnership-levels based on annual revenue generated with mscrm-addons
- **Reseller margin for all sales of our solutions:**
Your margin depends on your annual sales volume
- **Free Internal Use and Resell – licenses**
After signing up, you will be provided with free licenses valid for 3 months. Once a license is sold, the licenses are extended for a further year
- **Ongoing Educational offering for your team**
Free support via e-mail, online-chat/-sessions, or telephone, frequent online training to keep your consultants and sales teams up to date
- **Weekly Live Demonstrations of our Add-ons for Dynamics 365**
Every week you can join us for live overviews and demonstrations of our Add-ons to explore how our solutions can be used to increase usability and productivity
- **Improve your Dynamics 365-offer without investing time in development & support**
Partners can boost their Dynamics 365 offering without the need to develop & support the solutions involved
- **No Dynamics 365-service competition: mscrm-addons.com is a strict non-revenue ISV**
To avoid potential partner conflicts, we do not provide Dynamics 365 services. We always pass on customer requests to our partners. If our partners need assistance and request our help, we offer development services (hourly rate on request)
- **Building long-term relationships with your customers**
By providing a point of contact when it comes to working with our solutions, our partners can establish and maintain long-term relationships with their customers
- **NO Minimum, NO Fees**

If you are interested in becoming a reseller, please register on our website and fill & submit the reseller form, which can be found under the link below:

www.mscrm-addons.com/About-us/Partner-Program/Become-a-reseller
