

PowerSearch provides a powerful search routine as it allows a quick and easy search across several entities and multiple fields. It helps to simplify the use of Dynamics 365 by providing one page where all records can be found and favorites can easily be accessed.

Features and Capabilities

- Cross-entity search supporting Out-of-the-Box & Custom Dynamics 365 entities
- Search for specific values of a certain Dynamics 365 attribute
- Result-view: grouped by entity and easy to access with a single click
- Apply additional filters on each group to further track down results
- Favorites can be defined to create a single point of information (spi)
- Simple Dynamics 365-internal Configuration

Microsoft Dynamics	365 v9	365 v8	2015/2016
online (RTW)	✓	✓	✓
on-premise (RTM)		✓	✓
hosted (IFD)		✓	✓

The screenshot shows the Dynamics 365 interface with search filters for Account Name (Begins With), Address 1: County (Contains), and Address 1: City (Contains). The results table lists various accounts, with 'MSCRM-ADDONS.com' highlighted. The right-hand pane shows details for the selected account, including contact information and a list of cases and opportunities.

Account Number	Account Name	Address 1: Street...	Address 1: ZIP/P...	Address 1: City	Address
