

**HACKING
CULT**

Confirmation

Hacking Cult GmbH hereby confirms that an application-level penetration test was carried out for the following web application ecosystem:

MSCRM Addons in the version from the 28.08.2026

The application is developed by:

PTM EDV Systeme GmbH

Bahnhofgürtel 59

A-8020 Graz

The application was analyzed from 20.10.2025 to 31.10.2025. All identified vulnerabilities were documented in the report dated 04.11.2025.

The application was tested against the OWASP Top Ten. All tests were performed and verified manually by Reimar Fritz.

A retest carried out between 20.08.2026 and 28.08.2026 confirmed that the findings rated "critical" have been addressed.
