

PowerSearch for Microsoft Dynamics CRM 2011 Readme

April 2013

This document provides important, late-breaking information about PowerSearch for MS Dynamics CRM 2011.

Migration notes **[Important]**

Please make sure you have read the Microsoft Implementation Guide carefully.

As described in the following sections we do recommend getting in touch with us regarding an upgrade of our add-ons to CRM 2011:

As a general rule, all our products **must** be uninstalled before migrating from a previous version of CRM. By leaving the old version in place, you might end up with non-functional remains of the previous UI customizations.

If you chose not to uninstall our product any afterthought removal of the migrated items by us **is not covered** by the support and maintenance contract and will be invoiced.

If you are in doubt, please contact us before uninstalling or migrating to ensure a transition process as smooth as possible.
