

ActivityTools has been developed to simplify the Dynamics 365-internal handling of activities and emails by providing Microsoft Outlook-like visualization options and additional email-related functionalities.

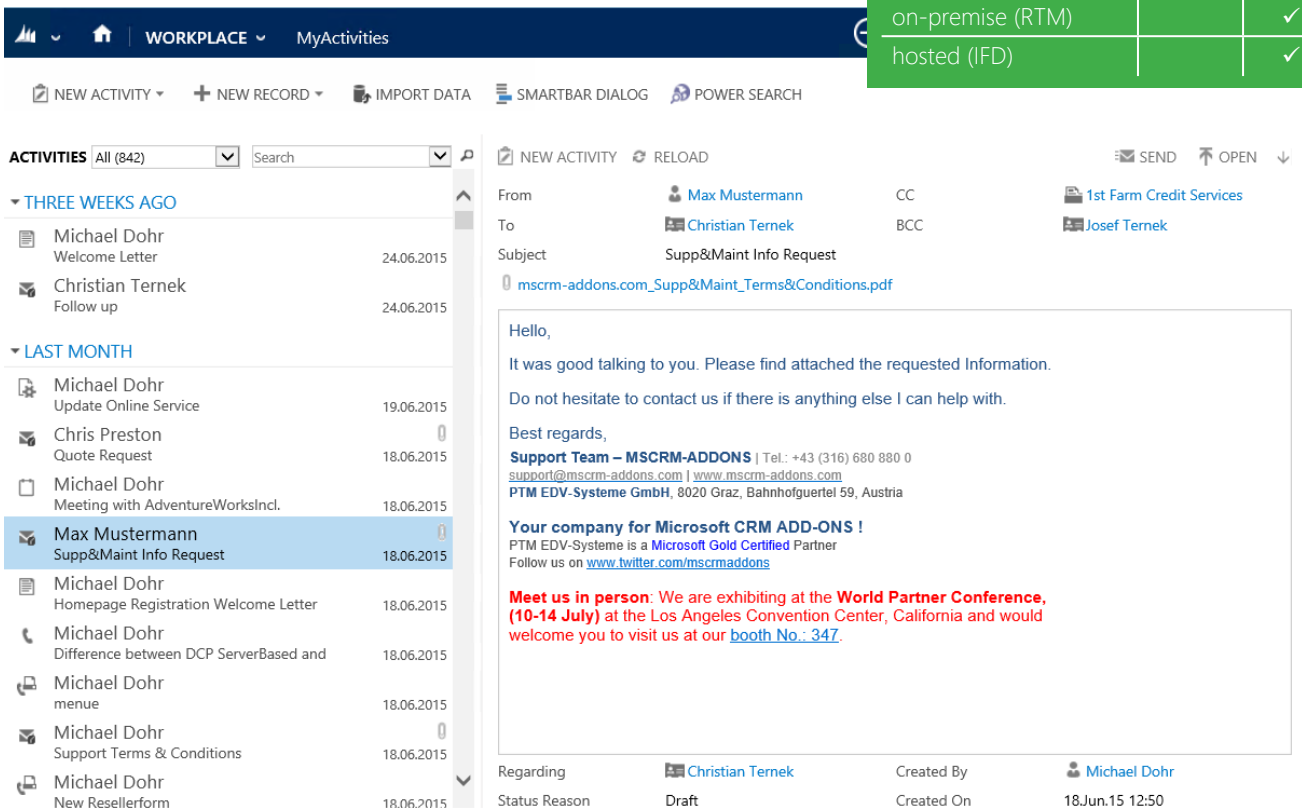

Main Functionalities

- Entity-related Activity Preview: Display all activities related to a Dynamics 365 record (email, phone, task, service-activities, ect.)
- User-related Activity Preview: Display all activities from the current Dynamics 365 user
- Included search- and grouping options
- Embed Activity Preview in: Entity-form, Form-menu, Dashboards and Dynamics 365 sitemap

Email Functionalities

- Signature-editor to design personal email-signatures
- Automatically insert personalized or default email-signatures to the email content
- Define a default sender (e.g. support / sales) for individual users

The screenshot shows the ActivityTools interface within a Microsoft Dynamics 365 environment. The top navigation bar includes 'WORKPLACE' and 'MyActivities'. Below this, there are buttons for 'NEW ACTIVITY', 'NEW RECORD', 'IMPORT DATA', 'SMARTBAR DIALOG', and 'POWER SEARCH'. The main area is divided into two sections: a list of activities on the left and an email preview on the right.
