

# DocumentsCorePack

## for Microsoft Dynamics 365

**DocumentsCorePack** allows a fast and easy document creation based on Dynamics 365 data. Based on Microsoft Word-templates, the Server- and/or Client-based document generation provides you with a set of tools to create and process documents inside Dynamics 365.

### DCP Client-based: Template Designer

- Microsoft Word integrated template design
- Standard and custom entities and attributes supported
- Dynamic filenames, activity subjects and save locations
- Password-protection and easy insertion of documents, pictures, HTML and QR-Code, ect.
- Computed Fields for basic arithmetical operations

### DCP Server-based Document Generation

- No need for a client installation
- „Create document Button“: Custom Dynamics 365 dialog for quick & easy document generation and processing on single and multiple records
- Dynamics 365 Process-Integration: Perform document operations in workflows, dialogs or actions
- Documents can be generated as: doc, docx, pdf, txt, xps, html, jpg, png, bmp and msg
- „Send as pdf“, preview & edit functionality
- Document printing via Local and Google-Cloud-printers
- Saving documents to MS SharePoint
