

GroupCalendar

schedule and reschedule users, groups and resources via drag & drop

Get an overview of the activities of all your users, teams or resources in one calendar. GroupCalendar supports several views with the option to define user-specific settings in order to meet individual requirements. Users get a set of tools like drag & drop or color coding to simplify scheduling within Dynamics 365.

Scheduling feature

- **Define/select/display** users, teams, resources and/or resource groups
- Display **time-off and working hours of your users**

- **Color coding of activities** manually or via business rules
- **Print & Print preview**
- Fully **customizable content**
- **Embed our add-on into any entity**

Views

- All views available in day-, week- or month-view
- TopDown-view (like Outlook), List-view, Gant-view, Timeline-view and Agenda-view

The view selection enables you to switch between day-, week- or month view.

Mark your appointments by adding various colors. The color coding functionality makes it possible.

Simply hover over an activity/ appointment in order to get a detailed preview.

New activities can be quickly added to the calendar. Create more detailed ones using the GroupCalendar SideBar.
