

DOCUMENTSCOREPACK OFFICE ADD-IN

Design professional templates –
anywhere, anytime.

A smarter way to design templates in Word

With the **new Template Designer Office Add-In**, creating and managing your data-driven documents has never been easier. It's designed to simplify template creation for Dynamics 365 and the Power Platform, while giving you the freedom to work the way you want.

Key benefits

The new Template Designer Add-In gives you the same familiar template creation experience in DocumentsCorePack, now instantly available in Word without local installation. Automatic updates keep you on the latest version, so your team can design professional, consistent documents anytime, anywhere - with the reliability you expect from DocumentsCorePack.

Work from anywhere

No installations. No dependencies. Just open Microsoft Word and start designing your templates directly in the app – available for Windows, Mac, and Online.

Always up to date

Forget about manual updates. The Add-In is automatically updated, so you always have the newest features and improvements without lifting a finger.

Security & compliance built-in

Work with confidence knowing the Add-In runs within the Microsoft 365 ecosystem, meeting enterprise-grade security and compliance standards.

Future-proof

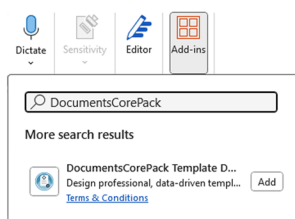

As Microsoft evolves the Office experience, our Add-In evolves with it. You're ready for what's next – without the need for re-installations or migrations.

Get started today!

1

Open the Office Add-ins Store in Word

Search for *DocumentsCorePack* and click "Add" to install

2

Start creating templates right away

Enjoy the familiar Template Designer experience
